Experience

Frontend Engineer Access Bank Lagos, Nigeria 10/2023 - Current

- creating a Progressive Web App (PWA) as an alternative secure channel for USSD transactions, real-time notifications for transactions, reducing dependency on USSD codes, scalability to accommodate a growing customer base
- Optimized the platform for performance and scalability, utilizing best practices and industry standards to ensure that it can handle large volumes of traffic and user interactions.
- Implementation of alternative secure channels for accessing transaction data: mobile app or web portal.
- Participating in daily stand-up meetings, sprint planning sessions, and retrospectives, providing regular updates on project status, and contributing to team discussions on improving performance and efficiency.
- Developed and maintained a modern, user-friendly web application for a International Monetary Transfer Operators partner, using cutting-edge technologies such as Angular, Bootstrap, Azure .

Frontend Engineer Techchak Texas, United States 05/2023 - 10/2023

- Worked on implementing and integrating a payment system using Stripe, paystack, and NextJs, allowing users to securely and easily transact on the platform.
- Optimized the platform for performance and scalability, utilizing best practices and industry standards to ensure that it can handle large volumes of traffic and user interactions.
- Developed a real-time chat feature using WebSockets and NextJs, resulting in a 40% increase in user engagement and customer satisfaction, using the latest technologies of **Nextjs**, **Zustand**, and **Socket.io**.
- Collaborating closely with the designers and developers to ensure that responsive designs were fully integrated into the development process and that they met the project requirements and timelines.

Frontend Developer Tradefiti Kenya 01/2023 - 05/2022

- Maintained and updated existing applications, ensuring that they remained up-to-date with the latest security standards and regulations, and addressing any issues or bugs that arose.
- Participated in code reviews and pair programming sessions, learning from more experienced team members and contributing to the development of a strong team culture focused on continuous improvement and learning
- Collaborated with a senior developer to deliver high-quality applications using NextJs, Chakra, ensuring that they met customer requirements and exceeded expectations. Through our efforts, we were able to increase customer satisfaction by 25%.

Education

Bachelor of Science University of Ibadan Ibadan, Oyo, Nigeria 04/2015 - 04/2019 • Major in Physiology
